

Information for parents and students

Waitakere City School of Dance are now offering the opportunity for our dancers to take their dance class home and learn faster with Movitae. There are some great resources on Movitae and we are really looking forward to providing students with their own personal dance assistant with video feedback and information to help with their dancing. We will also be using Movitae as a communication tool so please sign up now.

Movitae is simple to use, just sign up and you will receive an email and notification (once you have the app) when an item is shared with you - instructions below:

Click on this link - <https://movitae.com/signup?code=WAI1170> and sign up. Parents when signing up please use your child's name, you will need to enter parent details also.

You will be linked to Waitakere City School of Dance and will be prompted to join your class group.

Download the free Movitae App onto your smart phone/tablet for easy access to Movitae and to easily upload an item to share with your teacher.

Remember to use the help on the site to contact the Movitae team at any time, they are very helpful. You can also email them on info@movitae.com.

Thank you.
